

Sneha Shikshana Samsthe

Sneha Sikshana Samsthe (SSS) located at Sullia in Dakshina Kannada district of Karnataka state is a non-profit organization working for upgrading the quality of school education by adopting innovative pedagogies. In this school children are taught in their mother tongue till they complete their primary schooling. It is only when they move into high school that they switch over to English medium.

At Sneha School children are encouraged to learn through thinking. This institution believes that learning is best possible through the medium of a language with which a child is familiar.

Located in an area surrounded by lush green natural forest Sneha School provides an ideal setting for children to understand life through experiential learning. The school adopts both academic and co-curricular methods to impart education. Since the School adopts student-centric and interactive learning methodologies, children learn in a friendly environment.

Sneha School is endowed with such facilities as amphitheatre; open-air class rooms, multi-media centre, herbal plant garden and a well stocked library.

The School, which has a strong neighbourhood network, has organized a number of programmes with the active participation of local communities. These include organization of literary festivals, sports events, music, dance and folk art programmes in association with SPICMACY and counselling sessions for students and teachers of neighbourhood schools. The Schools' flagship programme is the training that it imparts in *Yakshagana*, the renowned folk art form of this region. Sneha School also conducts summer camps for children of nomadic tribes and extending financial support for children from economically vulnerable groups.
